

Sedum S-pod varieties 2018

Our S-pod trays are grown on the farm in Wiltshire and have approx 6-9 varieties of sedum at 90 - 100% coverage and fully established root system when shipped.

The varieties listed below are some of the sedums we are using this year. All hardy to the British weather and recommended for roof conditions.

Sedum kamtschaticum
Sedum rupestre 'Angelina'
Sedum spurium 'Tricolor'
Sedum acre 'Golden Queen'
Sedum spathulifolium
Sedum forsterianum
Sedum ellacombeanum
Sedum hybridum
Sedum album
